

## Dilation Consent

Our doctors at Opticology Eyecare and the American Optometric Association recommend a dilated eye examination to fully assess the health of your eyes. With dilation, drops are placed in the eyes to enlarge the pupils so that the doctor can carefully examine you for eye disease. Dilation is routine and does not cost extra.

Dilation will cause sensitivity to light and will make your near vision temporarily blurry. Our office will provide you with disposable sunglasses to minimize your sensitivity. If you have any questions, the doctor will be happy to answer them.

Please select one option below, indicating that you have read and understood the dilation consent.

- YES, I consent to have my eyes dilated.
- No, I do not wish to have my eyes dilated today, but I will reschedule the dilation.
- No, I do not consent to have my eyes dilated, and I agree to hold the practice harmless as a result.
